

Marine & Cargo Surveyors / Inspectors

for loss prevention activities within international logistics chains (f/m)

Full time employment in Bremen

For more than 25 years, the survey office of Mund+Bruns has been a recognized international specialist for providing carefully prepared assessments, expert consultancy services and detailed written reports.

As medium-sized, owner-led company we employ about 45 highly specialized experts at our head office in Bremen (Germany) and have international subsidiaries in Belgium, China and the USA.

For our headquarters in Bremen (Germany) we are currently looking for

Marine & Cargo Surveyors / Inspectors

for loss prevention activities within international logistics chains (f/m)

You are a teamplayer but you also like to work independently?
Then you are a perfect fit for us!

Ihre Aufgaben:

- investigations of transport equipment and vessels
- interface inspections within logistics chains
- loading and discharging surveys of project cargoes, heavy lifts and steel products of all kinds
- feasibility studies
- claim surveys and loss assessments
- stowage and securing inspections and recommendations
- packaging inspections and recommendations
- loss prevention recommendations in the transport sector
- site and warehouse inspections
- development and verification of safety concepts in the logistics sector
- preparation of reports in English
- communication with clients

Your profile:

- university degree (logistics/ transport, nautical or mechanical engineering) or
- or experience as a logistics manager with a technical and international orientation
- excellent English language skills, both written and spoken
- willingness to travel and drivers license

We offer:

- an exceptional corporate culture
- perspectives for further development
- flat hierarchies
- company vehicle, also for private use
