

Marine & Cargo Surveyors / Inspectors for loss prevention activities within international logistics chains (f/m)

For more than 25 years, the survey office of MUND+BRUNS has been a recognized international specialist for providing carefully prepared assessments, expert consultancy services and detailed written reports.

As medium-sized, owner-led company we employ about 50 highly specialized experts at our head office in Bremen (Germany) and our subsidiaries in Belgium, Russia, China and the USA.

For our subsidiary in Stabroek (Belgium) we are currently looking for

Marine & Cargo Surveyors / Inspectors

You are a team player but also like to work independently?

Then you are a perfect fit for us!

Your tasks:

- inspection of steel products and project cargoes
- inspections of transport equipment and vessels
- loading and discharging surveys of steel products and project cargoes
- stowage and securing inspections and recommendations
- packaging inspections and recommendations
- site and warehouse inspections
- direct contact with parties involved
- preparation of reports in English

Your profile:

- higher vocational degree (logistics / transport, nautical or mechanical engineering or similar) or
- professional experience in port operations / logistics
- excellent English language skills, both written and spoken
- flexibility and willingness to travel (abroad) on an occasional basis
- no 9 till 5 mentality

We offer:

- a pleasant working environment
- varied activities
- perspectives for further development
- possibilities for (internal) courses
- company vehicle

Are you interested?

Please send us your motivation letter and CV to applications@mund-bruns.be.
